<b>Work Type</b>	Utilities and Paving Repl/Rehab		
<b>Special Assessed</b>	Yes	<b>For More Information</b>	<a href="https://www.fargostreets.com">https://www.fargostreets.com</a>

**Project Purpose**

The existing CIP watermain on 3rd St is over 100 years old and needs to be replaced. Project FM-14-92 stubbed 10" PVC watermain south from 1st Ave N and we will tie into that stub. Likewise, the VCP sanitary sewer is 100 years old and show signs of deterioration and should be replaced. We will install new watermain and sanitary sewer services along with the new mains. The street reconstruction is necessary because the condition of the existing pavement has deteriorated and also because of the utility work. Street lights improvements will be completed with this project as well.

### COST DISTRIBUTION
